

WRIGHT STATE UNIVERSITY

In recognition of the outstanding academic achievements of

Christopher Davies

in the program of

Master of Science in Biomedical Engineering

awarded on this seventeenth day of April 2019

WRIGHT STATE UNIVERSITY
THE GRADUATE SCHOOL

Brian Riegling
DEAN, COLLEGE/SCHOOL

Tony Miller
INTERIM DEAN, GRADUATE SCHOOL

Christopher Davies

Master of Science in Biomedical Engineering

Chris Davies is completing his MS, including thesis, in May as part of his 4+1 combined Biomedical Engineering (BME) degree program. He was the recipient of the College of Engineering & Computer Science Outstanding Student award for BME in 2018. With his work, a provisional patent application has been filed and he is working on a manuscript submission. He has achieved major accomplishments in instrumentation, algorithm development, and data analysis during his year in Dr. Sunar's lab. He has demonstrated himself as an independent worker and his work is highly relevant to translational research and multi-institution collaborations that involve biomedical engineering, physics and medicine. Chris' advisor is Dr. Ulas Sunar.

Devon Douglas

Doctor of Psychology, Clinical Psychology

Devon Douglas has been a co-author or first author on an outstanding 17 posters or papers since coming to the School of Professional Psychology. Her posters won the Makey and Soklov first prize in both 2016 and 2017 at the Ohio Forensic Center Evaluation Director's conference. In 2018, she received two poster awards from the Ohio Psychological Association. No other student has won four awards for posters while attending the Doctor of Psychology program. Devon has also taken a leadership role in planning events for the forensic emphasis committee. For example, she arranged for students and faculty to watch an expert in a mock trial. Devon's advisor is Dr. Cheryl Meyer.
